

Lookit Design provides creative web services for small businesses.

We offer a complete range of design and technical services to help clients market their products and services over the Internet, including:

- **Visual Design.** We create a unique visual brand for a company and its products with a custom design approach.
- **Content Development.** Includes web copy editing, image sourcing, and overall site organization.
- **Database / Shopping Cart Integration.** We offer programming services for transactional sites.
- **Hosting and Technical Support.** We provide setup and maintenance of web sites, databases, and video streaming.
- **Internet Marketing.** This includes SEO (Search Engine Optimization) and site submission to the major search engines like Google. We're also a business partner with Constant Contact, the leading email marketing solution for small business.

An **ideal customer** wants to re-design their web site. Many sites are completely outdated, with stale content and boring template-based designs. Often there are new features or functionality that will improve the visitor's experience, as well as increase traffic and online sales.

**“If you're looking to stand out in the crowd,
Lookit Design will make you proud!”**
